code: **420**

Price: 97,47€

Technical specifications

Material: Polyester
Surface: Silver
Size: 100 sheets
Quantity: 320 x 450 mm

Short description

The Self-Adhesive Film Laser PET Silver Extra Permanent is a premium-grade polyester (PET) film designed for applications requiring a combination of durability, aesthetic appeal, and exceptional adhesive strength.

This product is ideal for creating high-impact labels that need to withstand harsh environments while offering a metallic, professional finish.
Key Features:
• Polyester (PET) Film: Constructed from robust PET material, this film is known for its superior durability and resistance to tearing, chemicals, and extreme temperatures. This makes it an excellent choice for labels that must endure demanding conditions without losing their integrity.
• Silver Metallic Finish: The striking silver finish of this film adds a touch of sophistication and professionalism to your labels. It is particularly suited for high-end product labeling, branding, or any application where a premium appearance is essential.
• Extra Permanent Adhesive: Featuring an extra permanent adhesive, this film ensures that once applied, the label remains securely attached to a wide variety of surfaces, including metal, plastic, glass, and more. This strong adhesive performance is ideal for labels that need to stay in place for extended periods or in challenging environments.
• SRA3 Size Format: Provided in the SRA3 size, this product offers ample space for larger labels or multiple smaller labels per sheet. The package contains 100 sheets, making it suitable for both small and large-scale projects.
• Laser Printer Compatibility: Optimized for laser printing, this PET film delivers sharp, clear text and vibrant graphics. The material is engineered to handle the heat and pressure of laser printing, ensuring consistent, high-quality output without smudging or distortion.
Applications:
• Product Labels: Perfect for luxury goods, electronics, and other products that benefit from a high-quality, metallic label that stands out on the shelf.
• Durable Industrial Labels: Ideal for labeling equipment, machinery, and tools where durability and resistance to harsh conditions are required.
• Branding and Marketing: Suitable for creating eye-catching promotional materials, brand labels, and any application where visual impact is key.
The Self-Adhesive Film Laser PET Silver Extra Permanent SRA3 is an excellent choice for professionals who need labels that not only perform under pressure but also make a bold visual statement. Whether used for product labeling, industrial applications, or branding, this film offers the durability, adhesive strength, and aesthetic appeal needed to create lasting impressions.
